HA-600 SLIM / HA-700 SLIM / HA-900 SLIM

VERSIONS Stainless / White / Black

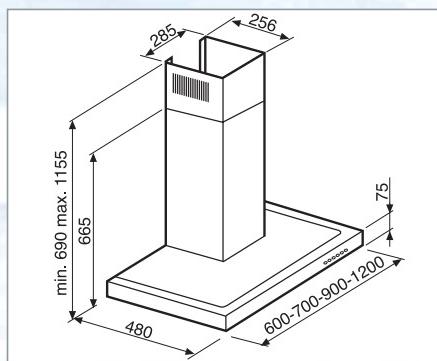

HA-600 Slim: 60 cm wide

HA-700 Slim: 70 cm wide

HA-900 Slim: 90 cm wide

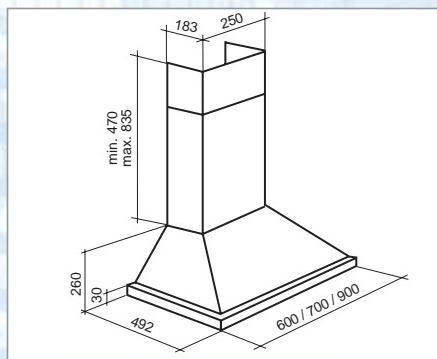

- Tangential motor/capacitor motor
- Illumination: 2 halogen 20 W lamps (BOX-1200, 3 of 20 W)
- Professional type metal filters
- Frontal, push button, speed selector
- Telescopic chimney fitting
- Backdraft shutter
- Reducer for discharge conduit to 120 mm
- Air recirculation through carbon filters (optional/available under request)

Dimensions (mm)

- Tangential motor/capacitor motor
- Illumination: 2 lamps of 40 W
- Professional type metal filters
- Frontal, push button, speed selector
- Telescopic chimney
- Backdraft shutter
- Reducer for discharge conduit to 120 mm
- Air recirculation through carbon filters (optional/available under request)
- Chrome tray (optional)

Dimensions (mm)

Technical characteristics

| Model | Airflow at free discharge (m ³ /h) | Diameter discharge tube (mm) | Motors | Speed (r.p.m.) | Voltage (V) | Power (W) | Current (A) | Sound pressure level (dB (A)) |
|---------|---|------------------------------|--------|----------------|-------------|-----------|-------------|-------------------------------|

| HA SLIM | 700 | 150 | 1 | 3 | 230 | 210 | 0,9 | 58 |

VERSIONS Stainless

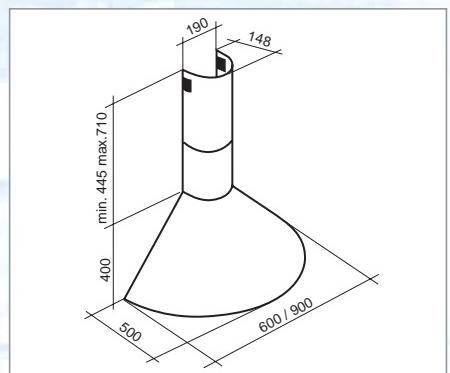

SELENE-600 N: 60 cm wide

SELENE-900 N: 90 cm wide

- Tangential motor/capacitor motor

- Illumination: 2 lamps of 40 W
- Professional type metal filters
- Frontal, push button, speed selector
- Telescopic chimney
- Backdraft shutter
- Reducer for discharge conduit to 120 mm
- Air recirculation through carbon filters (optional/available under request)
- Chrome tray (optional)

■ Dimensions (mm)

VERSIONS Stainless

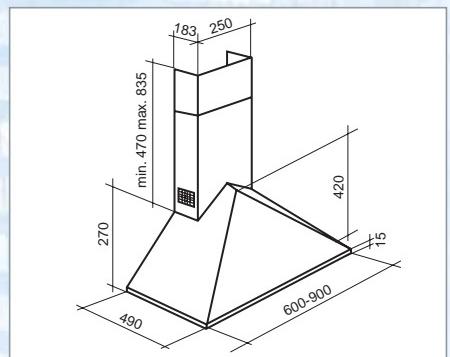

KEOPS-600: 60 cm wide

KEOPS-900: 90 cm wide

- Tangential motor/capacitor motor

- Illumination: KEOPS-600 N. 2 halogen lamps 2x20 W/ KEOPS-900 N. 3 halogen lamps 3x20 W
- Professional type metal filters
- Frontal, push button, speed selector
- Telescopic chimney
- Backdraft shutter
- Reducer for discharge conduit to 120 mm
- Air recirculation through carbon filters (optional/available under request)
- Chrome tray (optional)

■ Dimensions (mm)

■ Technical characteristics

| Model | Airflow at free discharge (m³/h) | Diameter discharge tube (mm) | Motors | Speed (r.p.m.) | Voltage (V) | Power (W) | Current (A) | Sound pressure level (dB (A)) |

VERSIONS Stainless (with push button switch)

White (with sliding switch)

60 cm wide

- Tangential motor/capacitor motor
- Illumination: Two 40 W lamps
- Professional type metal filters
- Frontal, push button, speed selector
- Backdraft shutter
- Air recirculation through carbon filters (optional/available under request)
- Telescopic chimney CHE available in white and stainless steel versions under request.
- Chrome tray under request.

■ Dimensions (mm)

VERSIONS Stainless

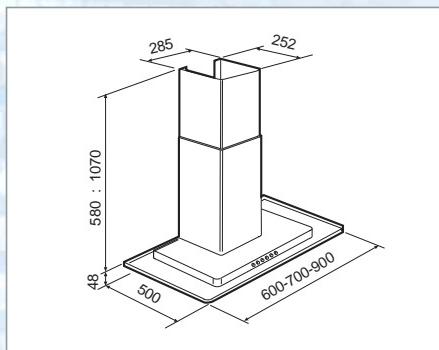

PAMELA 600: 60 cm wide

PAMELA 700: 70 cm wide

PAMELA 900: 90 cm wide

- Tangential motor/capacitor motor
- Illumination: 2 halogen lamps (2x20 W)
- Professional type metal filters
- Frontal, push button, speed selector
- Telescopic chimney
- Backdraft shutter
- Reducer for discharge conduit to 120 mm
- Air recirculation through carbon filters (optional/available under request)

VERSIONS Stainless

ONDA CRISTAL: 90 cm wide

- Tangential motor/capacitor motor
- Illumination: 2 halogen lamps (2x20 W)
- Professional type metal filters
- Push button, "luminous" type speed selector
- Telescopic chimney
- Backdraft shutter
- Reducer for discharge conduit to 120 mm
- Air recirculation through carbon filters (optional/available under request)

■ Dimensions (mm)

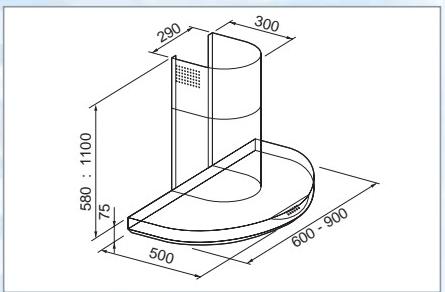

VERSIONS Stainless

GEMA 600: 60 cm wide

GEMA 900: 90 cm wide

- Tangential motor/capacitor motor
- Illumination: GEMA 600, 2 halogen lamps (2x20 W) / GEMA 900. Three halogen lamps (3x20 W)
- Professional type metal filters
- **"Touch control"** electronic speed selector
- Timer (15 min.)
- Filter saturation warning
- Telescopic chimney
- Backdraft shutter
- Reducer for discharge conduit to 120 mm
- Air recirculation through carbon filters (optional/available under request)

Decorative hood accessories

BAND RED

Chromed trays suitable for SELENE-N and ELEGANCE models.

Dimensions: 60 and 90 cm

BAND CDR

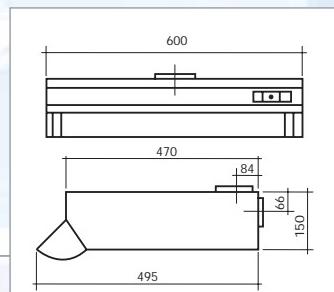

Chromed trays suitable for KEOPS-N and HA-Slim models.

Dimensions: 60, 70 and 90 cm

TRADITIONAL HOODS

HP-60 / HP-60bi

Dimensions (mm)

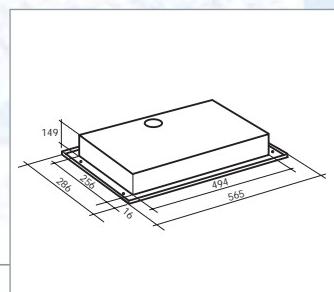

VERSIONS White/ Brown

HP-60: 60 cm wide

HP-60bi: 60 cm wide

- One motor (HP-60) or two motors (HP-60bi)
- 3 speed
- Two 40 W lamps
- Metal filter
- Backdraft shutter
- Upper or rear extraction
- Air recirculation through carbon filters (optional/available under request)

GE-350N / GE-350Nbi

Dimensions (mm)

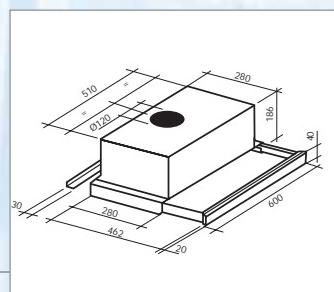

VERSIONS White/Brown

GE-350N: 56,5 cm wide

GE-350Nbi: 56,5 cm wide

- Fittable assembly
- One motor (GE-350N) or two motors (GE-350Nbi)
- 3 speed
- 240 W lamps
- Metal filter
- Backdraft shutter
- Upper extraction
- Air recirculation through carbon filters (optional/available under request)

GET-60NC / GET-60NCbi

Dimensions (mm)

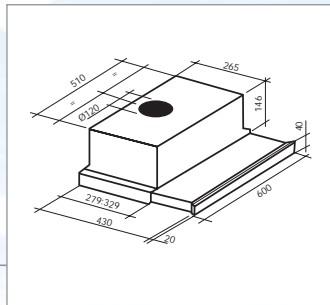

VERSIONS White

GET-60NC: 60 cm wide

GET-60NCbi: 60 cm wide

- Hood with telescopic glass extension
- One motor (GET-60NC) or two motors (GET-60NCbi)
- 3 speed
- Safety switch
- Illumination: two 40 W lamps
- Metal filter
- Backdraft shutter
- Upper extraction
- Air recirculation through carbon filters (optional/available under request)

GET-60NF / GET-60NFbi

Dimensions (mm)

VERSIONS

GET-60NF: 60 cm wide. **White**

GET-60NFbi: 60 cm wide. **White**

GET-60NFbi: 60 cm wide. **Brown**

GET-60NFbi: 60 cm wide. **Metal**

- Hood with telescopic extension filter
- One motor (GET-60NF) or two motors (GET-60NFbi)
- 3 speed
- Safety switch
- Illumination: two 40 W lamps
- Metal filters
- Backdraft shutter
- Upper extraction
- Air recirculation through carbon filters (optional/available under request)

Upper or rear extraction

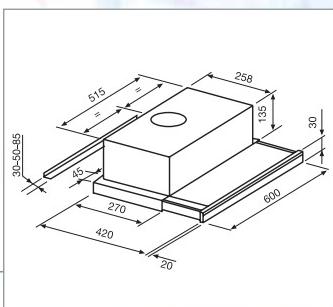

Easing the outlet installation of smoke and grease

Air recirculation of air

Carbon filters allow to use the kitchen hood when the extraction function can not operate.

GET-60NF PLUS

Dimensions (mm)

VERSIONS **Stainless**

GET-60NF PLUS: 60 cm wide

- Hood with telescopic extension filter
- **Capacitor motor**
- 3 speed
- Safety switch
- Illumination: two 20 W halogen lamps
- Metal filters
- Backdraft shutter
- Upper extraction
- Air recirculation through carbon filters (optional/available under request)

■ Technical characteristics

| Model | Airflow at free discharge (m ³ /h) | Diameter discharge tube (mm) | Motors | Voltage (V) | Power (W) | Absorbed current (A) | Sound pressure level (dB (A)) |
|---------------------|---|------------------------------|--------|-------------|-----------|----------------------|-------------------------------|
| HP-60/HP-60bi | 300/450 | 120 | 1/2 | 230 | 130/260 | 1,30/2,20 | 47/50 |
| GE-350N/GE-350Nbi | 300/450 | 120 | 1/2 | 230 | 130/260 | 1,30/2,20 | 51/55 |
| GET-60NC/GET-60NCbi | 230/330 | 120 | 1/2 | 230 | 180/280 | 1,30/2,20 | 45/50 |
| GET-60NF/GET-60NFbi | 230/330 | 120 | 1/2 | 230 | 180/280 | 1,30/2,20 | 46/50 |
| GET-60NF Plus | 525 | 120/150 | 1 | 230 | 205 | 0,75 | 65 |

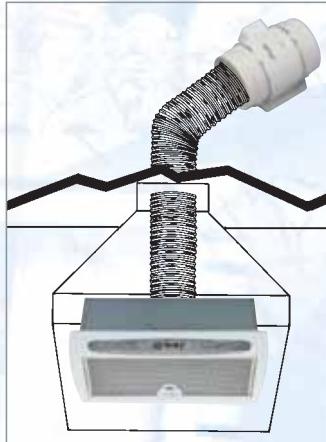

COOKER HOODS AND KITCHEN FITTINGS REMOTE EXTRACTION

1 026682 603079

Through many years of experience in dealing with kitchen extract systems S&P are able to offer a new concept that replaces the traditional cooker hood unit.

TD+CF-60

TD+HS-600 / HS-900

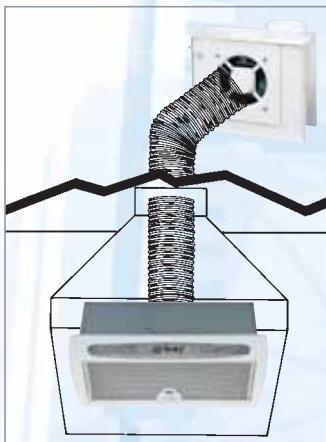

The Remote Extraction

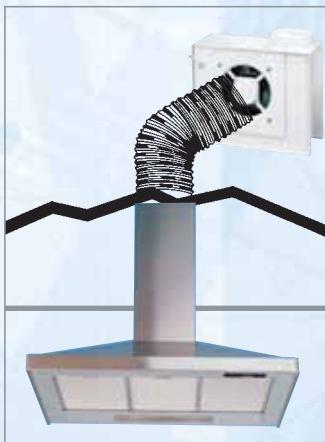

This new design has a double aim:

1. To move the extractor further away from cooking area and therefore lowering the ambient noise radiated.
2. To achieve a higher smoke, grease and vapour extract rate.

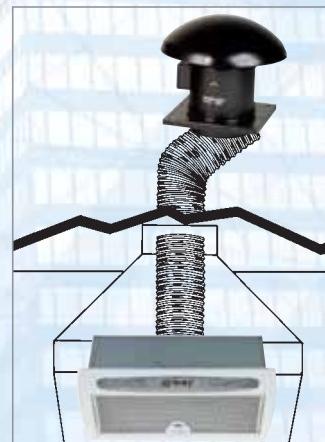

CKB+CF-60

CKB+HS-600 / HS-900

TH+CF-60

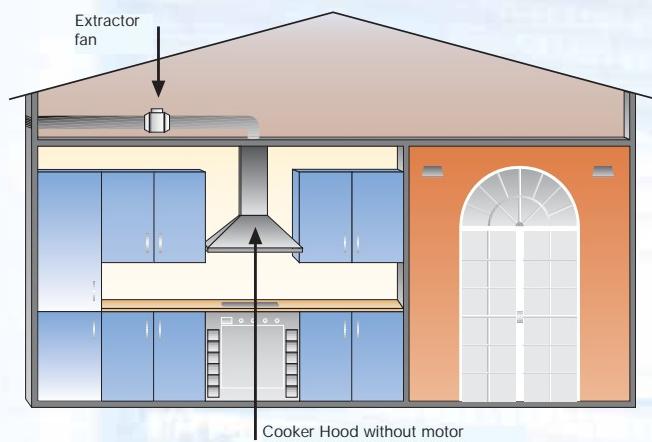

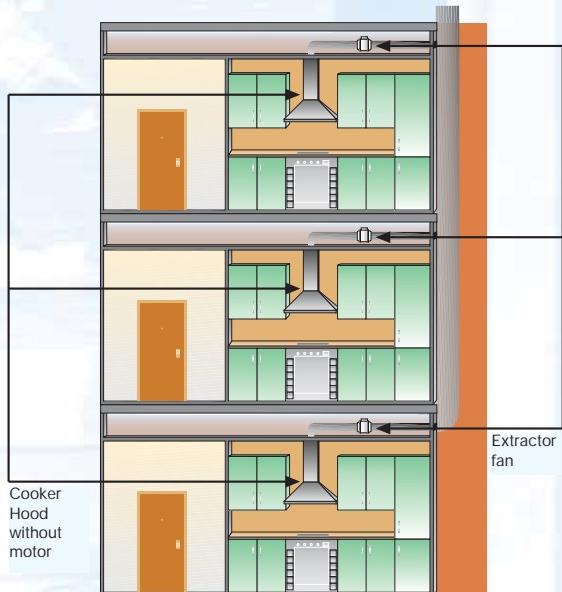

TH+HS-600 / HS-900

IN-LINE FAN SYSTEM

By installing a canopy hood, with filter and controls, along with a remote mounted duct fan provides enormous flexibility of installation.

REMOTE EXTRACTION

TD-800

Mixed flow in-line fan, type TD-800/200 N with an airflow performance of 800 m³/h. Speed controllable from the cooker hood and designed to be installed at any point of the duct.

■ Technical characteristics

| Model | Airflow at free discharge (m ³ /h) | Diameter discharge tube (mm) | Voltage (V) | Power (W) | Sound pressure level (dB (A)) |
|---------|---|------------------------------|-------------|-----------|-------------------------------|
| TD-800 | 800 | 200 | 230 | 140 | 45 |
| CKB-800 | 800 | 200 | 230 | 175 | 60 |

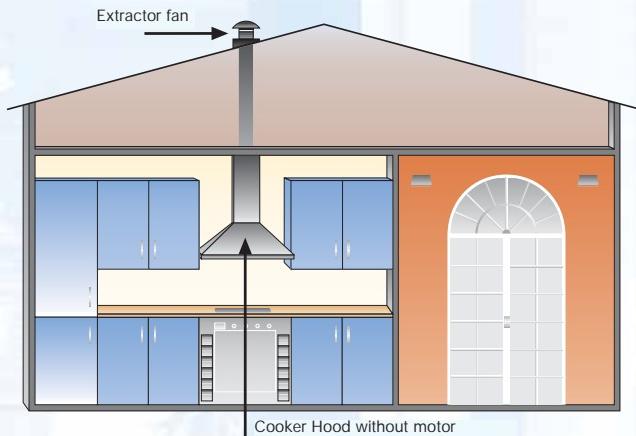

CKB-800

Centrifugal fan with an airflow performance of 800 m³/h. Controllable from the cooker hood and designed to be installed within the duct.

ROOF MOUNTED FAN SYSTEM

By installing a canopy hood, with filter and controls, along with a remote mounted duct fan provides enormous flexibility of installation.

TH-800

Centrifugal roof extract fan with an airflow performance of 800 m³/h. Controllable from the cooker hood and designed for roof mounted installations either in buildings or in houses.

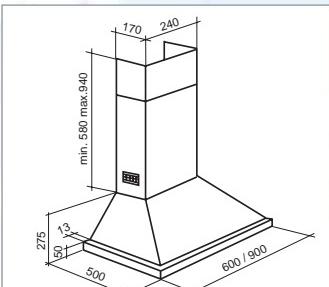

■ Technical characteristics

| Model | Airflow at free discharge (m ³ /h) | Diameter at free discharge (mm) | Voltage (V) | Power (W) | Sound pressure level (dB (A)) |
|--------|---|---------------------------------|-------------|-----------|-------------------------------|
| TH-800 | 800 | 200 | 230 | 140 | 52 |

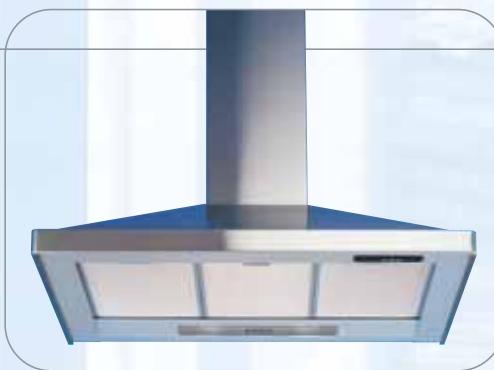

COOKER HOODS WITHOUT MOTOR

For the remote extraction installation

HS-600 / HS-900

Dimensions (mm)

VERSIONS Stainless

HS-600: 60 cm wide

HS-900: 90 cm wide

Decorative cooker hoods without motor

- Illumination: two 40 W lamps
- Professional type metal filters
- Fan system speed controllable
- Telescopic chimney

Fitted with control panel to control the speed of the fan.

MOUNTING KIT «H»

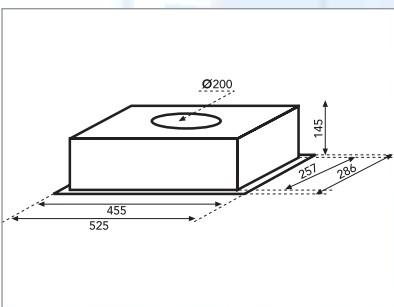

To ease the installation of the decorative cooker hoods HS-600 and HS-900 regardless of the fan, a mounting kit with the required accessories is offered below:

GAR-190/150
Flexible aluminium
190x150mm ducting
with circular ends.
3m long.

FLANGE-200
Circular duct coupling.
For fans CKB-800

BA-50
Aluminium adhesive
connection tape to fix
the accessories for the
remote extraction
installation.
5 m long.

CF-60

Dimensions (mm)

VERSIONS White Brown Stainless

CF-60: 53 cm wide

- Unit without motor, to fit in the cupboard
- Illumination: two 40 W lamps
- Professional type metal filters
- Fan system speed controllable

Fitted with control panel to control the speed of the fan.

MOUNTING KIT «F»

To ease the installation of the group CF-55 regardless of the fan, a mounting kit with the required accessories is offered below:

GSA-200
Flexible aluminium
190x150mm ducting
with circular ends.
3 m long.

BRIDA-200
Circular duct coupling.
For fans CKB-800

BA-50
Aluminium adhesive
connection tape to fix
the accessories for the
remote extraction
installation.
5m long.
